OBJECTIVE

Final-year Computer Science and Design Engineering student with hands-on experience in **Java, MySQL and full-stack development**. Skilled at designing intuitive user interfaces and developing scalable backend systems. Seeking to leverage technical expertise to solve real-world problems and contribute to a collaborative software development team.

SKILLS

- **Programming Languages:** Java, MySQL, C
- **Web Development:** HTML, CSS, PHP, React.js
- **Core Areas:** Machine Learning(Beginner), Data Structures
- **Tools:** Git, GitHub

PROJECTS

Online Crime Reporting System

2024

- Developed a secure web platform using **PHP, HTML, CSS, and MySQL** for users to report crimes online.
- Implemented user authentication and case tracking for complainants and police officers.
- Designed a responsive UI and an admin panel for managing reports and monitoring case progress.

AI Deepfake Voice Detection using Machine Learning

2025

- Built a system to detect AI-generated (deepfake) voice recordings using MFCC features and machine learning models (SVM, Random Forest, VGG-16).
- Implemented data preprocessing, feature extraction, and classification to improve detection accuracy.
- Aimed to address cybersecurity risks, misinformation, and voice-based fraud by distinguishing real vs. synthetic audio.
- Tools/Tech: **Python, Librosa, Scikit-learn, Jupyter Notebook, VS Code**

EDUCATION

Bachelor of Engineering in Computer Science and Design Engineering

Canara Engineering College, Mangalore

2022-2026

Pre-University Education

JCBM PU College, Sringeri

2020-2022

Secondary Education

Jaycess High School, Sringeri

2019-2020

CERTIFICATIONS

- Google AI Essentials – Coursera (Authorized by Google) – May 2025. [View Certificate](#)
- Introduction to MongoDB (For Students) – MongoDB University – May 2025. [View Certificate](#)
- Git Training – EduPyramids, SINE (IIT Bombay), Canara Engineering College – Apr 2025. [View Certificate](#)
- Unlocking the Basics of Machine Learning – Accolade Tech Solutions – Oct 2024.
- AI for Students: Build Your Own Generative AI Model – NxtWave – Jun 2025 (Hands-on Workshop).

ADDITIONAL INFORMATION

- Languages: English, Hindi, Kannada.
- Interests: Fitness, Coding, Football.
